Skills

- **Frontend Development:** React.js | Next.js | JavaScript | TypeScript | HTML5 | CSS3 | Tailwind CSS
- **Backend & Full-Stack:** Node.js | Express.js | MongoDB | REST APIs
- **Tools:** Git | GitHub | Docker | Postman | Firebase
- **Core Expertise:** Frontend | Backend | Full-Stack Development

PROFILE SUMMARY

Full-Stack Developer with hands-on experience in building scalable web applications using MERN, Next.js, and modern UI frameworks. Skilled in backend optimization, REST API design, cloud deployment, and responsive UI development. Focused on performance-driven engineering, clean code, and production-ready workflows.

Work Experience

Software Developer
Mamo Technolabs

Dec 2024 – Mar 2025
Vadodara, India

- Developed and maintained full-stack web applications using React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB.
- Built and integrated RESTful APIs for payment processing, authentication, and order management functionalities.
- Enhanced backend performance through asynchronous programming, Redis caching, and optimized database operations.
- Automated build and deployment processes using GitHub Actions and Docker, improving development workflow efficiency.
- Collaborated with developers and designers to build responsive and user-friendly web applications.

Education

B.Tech in Computer Science
Parul University,

2021 – 2025
Vadodara, India

Projects

- **Hunger Hive – Food Delivery System | Live Demo:** hunger-hive.vercel.app

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

- Developed a full-stack food delivery platform enabling users to browse restaurants, place orders, and track order status.
- Implemented secure user authentication, role-based access control, and an admin dashboard for restaurant and order management.
- Integrated payment gateway functionality and optimized backend APIs for efficient order processing.

- **Find My Driver – Car Driver Booking Platform | Live Demo:** car-drivers-frontend.vercel.app

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase

- Built a driver booking platform that allows users to search and hire verified drivers based on location and availability.
- Developed responsive user interfaces using React.js and Tailwind CSS for an enhanced user experience.
- Implemented driver listing, booking workflows, and secure backend APIs for efficient data management.

- **Personal Portfolio Website | Live Demo:** port-folio-sooty-six.vercel.app

Tech Stack: React.js, Tailwind CSS, Framer Motion

- Developed a modern portfolio website to showcase projects, technical skills, work experience, and achievements.
- Implemented responsive design, smooth animations, and optimized performance using Next.js.
- Integrated resume download functionality, project showcase sections, and contact form features.
